

Product Information:

GROUND FORCE ATV 10W-40 SEMI-SYNTHETIC 4-STROKE ENGINE OIL

Description

Ground Force ATV is an advanced high performance semi-synthetic 4-stroke engine oil for use in the highly stressed engines of all-terrain vehicles (quad bikes), generator sets and other ancillary equipment.

Ground Force ATV 10W-40 provides superior film strength with high dispersancy and outstanding thermal stability to protect pistons, cam lobes and bearings operating under highly stressed conditions. Excellent shear resistance ensures that Ground Force ATV 10W-40 stays in grade for the full service period. Surface active additives reduce component wear and release more power to improve overall performance. Ground Force ATV 10W-40 is safe to use with wet clutches.

Applications

Ground Force ATV 10W-40 is recommended for use in all-terrain vehicles, quad bikes, generator sets and other ancillary equipment, where a product of this type and viscosity grade is specified.

Performance Levels

API SL
JASO MA2

Physical Characteristics

Density at 15.6 °C	0.864
Kinematic Viscosity at 100 °C (cSt)	14.1
Kinematic Viscosity at 40 °C (cSt)	93.4
Viscosity Index	154
CCS @ -25 °C (mPa.s)	7000 max
Closed Flash Point (°C)	210
Pour Point (°C)	-40
TBN (mgKOH/g)	6.5
